

10-781 Quick Change Metal Safety Knife

A medium/heavy duty knife with all metal components for durability, plus easier blade change and a spring back blade

1 3 sided slider button – Easy to use from top, left and right side

2 No tools blade change – Easier and faster to change blades

3 Blade auto-retracts after use – Safer – less chance of puncture wounds

4 Ergonomic styling – More comfortable to use

5 Supplied with safety blade – Still sharp – but safer, less risk of injury
