

Easy to use . . .

Anyone can use Strip-Driver by following the simple directions on the tell-sell card. A table for determining wire gauge sizes is printed on the back of the card — so you don't have to be a professional to use Strip-Driver.

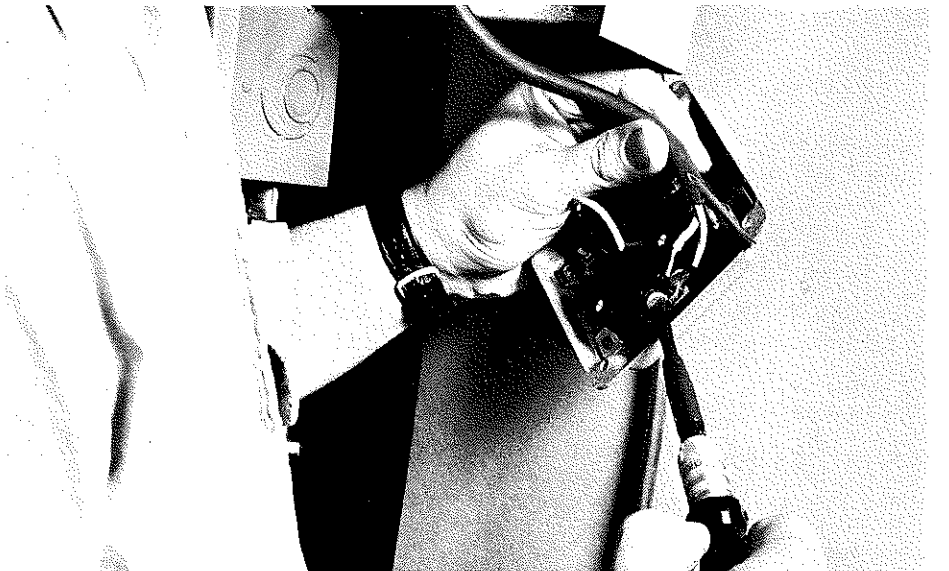

Handy . . .

Strip-Driver — the multi-purpose tool every handyman will find a use for. No home workshop is complete without one. Typical Stanley quality from handle to tip.

Fast . . .

For the professional, Strip-Driver saves the time of handling three tools to do one job. Strip-Driver is "dikes," wire strippers and screwdriver all in one tool of professional quality — built to last through tough everyday use.
